

## Delphina Safe Holiday

Safe hospitality is our priority

We are delighted to welcome you to the north of Sardinia and to have you as our guests in complete safety by offering you an authentic experience in unique places for your holiday.

All our hotels, resorts, residences and villas are immersed in the luxuriant nature that is Gallura and their location in private parks of Mediterranean macchia allows us to guarantee a natural amount of space. Each room has an independent entrance and the presence of large openings, terraces and spacious verandas both in the restaurants and bars, allows a constant change of air and the chance to enjoy your holiday outdoors.

Information signs, hand sanitizing gels and measures to promote distancing are present in all common areas as well as the fact that all the most frequently touched surfaces and equipment used are regularly sanitized with the change of each guest.

Presence of medical staff in the facilities, with a medical centre providing assistance for clinical assessments and advice by appointment.

The experience of recent years has led us to further improve our standards, increase the level of attention dedicated to the hygiene and sanitation of rooms and spaces and introduce new operational protocols. Our staff are fully trained on these issues, we have taken steps to guarantee the presence of health personnel who monitor the facilities and we have adopted all the measures suggested in the guidelines of the World Health Organization, the Italian government and Regional Conferences.

We work daily to ensure you have a peaceful and safe holiday, in line with that Mediterranean hospitality that distinguishes Delphina style, your friend in Sardinia.
